Skills

- **Languages:** C++, JavaScript, C, Dart
- **Web Frameworks & Technologies:** React.js, Node.js, Express.js, Tailwind CSS, HTML, CSS, Flutter
- **Database Skills:** MongoDB, PostgreSQL
- **Tools/Platforms:** VS Code, Postman, phpMyAdmin, Firebase, Docker, Git, GitHub
- **Soft Skills:** Problem-Solving, Ownership, Team Collaboration, Decision-Making, Technical Communication

Internship

Mobile Application Development Using Flutter | GitHub Jun 25 - Jul 25

Training Intern

- Engineered **LPUTOUCH**, a Flutter-based mobile application replicating the official university app and supporting **6+ campus service modules**, providing centralized access to academic and administrative services for students.
- Implemented **Firebase Authentication and Realtime Database**, enabling **secure user login** and **real-time data synchronization** across multiple screens, which improved data consistency and reduced authentication-related issues.
- Optimized UI rendering and application performance by reducing screen load times by **~30%**, contributing to a **25% increase in user engagement** during internal testing and demo usage.
- **Tech Stack**: Flutter, Dart, Firebase

Projects

E-commerce Marketing Website | GitHub Dec 25

- Architected a scalable full-stack e-commerce platform enabling **product browsing, cart management, and persistent user sessions**, designed to support **500+ concurrent test users** without performance degradation.
- Developed a React.js frontend integrated with **Node.js and Express.js APIs**, processing **bulk uploads of 1,000+ products**, which reduced manual administrative effort by **approximately 70%.**
- Designed and optimized **MongoDB schemas and queries**, achieving **40% faster data retrieval** and ensuring reliable performance under simulated high-traffic conditions.
- **Tech Stack**: React.js, Node.js, Express.js, MongoDB, Postman

Virtual Storefront | GitHub Apr 25

- Delivered a virtual storefront supporting end-to-end product ordering, allowing users to browse, adding items to the cart, and place orders for 100+ products smoothly.
- Built a fully responsive user interface using **HTML and Tailwind CSS** with a **PHP backend**, improving cross-device usability and reducing UI-related issues by **35%**.
- Integrated **RESTful APIs with MySQL (phpMyAdmin)** to enable secure authentication, efficient product management, and reliable cart transactions with **zero data inconsistency** during testing.
- **Tech Stack**: Tailwind CSS, PHP, MySQL (phpMyAdmin), RESTful APIs

Certifications

- Master Generative AI and Generative AI tools | UDEMY | CERTIFICATE — Aug 25
- Mobile Application Development Using Flutter | LPU | CERTIFICATE — Jul 25
- Cloud Computing | NPTEL / SWAYAM | CERTIFICATE — May 25
- Mastering Data Structures and Algorithms | NEO COLAB | CERTIFICATE — Dec 24
- The Bits and Bytes of Computer Networking | COURSERA | CERTIFICATE — Sep 24

Achievements

- **Coding Ninjas University Leaderboard – Topper:** Ranked **#1** out of **1200+** students from Lovely Professional University, showing excellence in competitive programming and algorithmic problem-solving.
- **Community Volunteer:** Volunteered in community welfare activities, assisting orphans and elderly individuals, received an NGO certificate in recognition of social contributions.
- **Professional Execution:** Delivered high-quality work in technical projects, receiving positive feedback for creativity and execution.

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.14*** — *Aug 23 - Present*
- **Sri Siddartha Junior College** — Madanapalli, Andhra Pradesh
  Intermediate; ***Percentage: 97.7%*** — *Jun 21 - Mar 23*
- **Vasishta E.M High School** — Madanapalli, Andhra Pradesh
  Secondary School Certificate; ***Percentage: 100%*** — *Apr 20 - Mar 21*
